

Access to Finance for Low Cost Private Schools

Please join us to hear from market leaders regarding key findings of the report and pre-pilot results, geared at exploring the full potential of the low cost private school sector. Panelists comprising of finance and education sector experts will assess financial and quality drivers essential to facilitate LCPS growth from a small scale entrepreneurship perspective, including practical and low risk mechanisms to enable access to credit for edupreneurs.

A live market place will be hosted to provide participants with the opportunity to engage with emerging edupreneurs and view innovative and replicable education solutions being tested and scaled up by public and private institutions.
